VACATION RENTAL MANAGERS
EVERYWHERE NEED TO DEPLOY

ENTERPRISE SMART HOME

Going Keyless Improves Operations

By eliminating keys, you reduce your liability, automate check-in/check-out and streamline turn days. Homeowners and guests prefer keyless.

Cellular Improves Reliability

Since we install a cellular gateway in every property, you don't have to rely on your unreliable wifi router. And it works with a very weak cellular signal.

See What You Need To Know & When

Know when your housekeepers start and end cleaning and automatically notify inspectors. See real-time property status and temperature on your dashboard.

Homeowners Want Smart Home

PointCentral customers are finding that 90%+ of their homeowners are opting in to their enterprise smart home system, and helping to pay the costs.

Guests Love Smart Homes

Guests can go straight to the property and not stand in line. If the house is ready early, they get automatic text and email alert.

No Upfront Cash + New Revenue

PointCentral financing eliminates any upfront cash. And many VRMs are charging homeowners and guests more than the system costs.

Save 10% to 15% On Energy

Receive automatic alerts when temperature falls outside your min/max thresholds. Helps you stop heating and cooling vacant properties.

Homeowners want Smart Home. If they install before you do, you will lose control of access & temperature.
