

WHY DO MORE VRMS TRUST POINTCENTRAL FOR SMART HOME AUTOMATION?

PROVEN TRACK RECORD

Successfully installed in 10s of thousands of properties in nearly 200 vacation rental management companies in the U.S.

RELIABLE ARCHITECTURE

Smart hub installed in every property uses reliable cellular network - not WiFi. Works on even the weakest of cellular signals.

FINANCIAL STABILITY

Our parent company, Alarm.com (NASDAQ: ALRM), is fully committed to supporting and expanding our leadership position.

ROBUST FEATURES

Anywhere enterprise control, real-time history & notifications, house ready early, thermostat energy control, door & window sensors, HVAC and more.

LARGE SUPPORT TEAM

More than 40 development & support engineers, self-install tools including installation app, optional install team, and support center all ensure a successful implementation.

PMS INTEGRATION

We interface with Barefoot, Ciirus, Escapia, Glad To Have You, LiveRez, Maxxton, RMS, RNS, Springer-Miller, Streamline, Track, V12.Net, VRBO and VRM with more coming on.

"We switched to PointCentral and never looked back. We have had zero issues – none whatsoever. We are very pleased. It has been extremely reliable. Switching to PointCentral was a great decision."

Tom Goodman, Owner • Padre Island Rentals • South Padre Island, Texas
